Flow Control Statement in Java Notes:

Operator → Symbol which is used to perform mathematical calcualtions

Types:

1. Arithmetic operator:

+
-
*
/
%--Modulous--->it will give reminder value

3 | 16 | 5
15
1

16/3=5

16%3=1

---

2. Relational Operator

<
>
<=
>
>=
==
!=

→ To compare

x=10
y=20

x<y

y>x

x!=y

x=10
y=10

x==y

---

2. Relational Operator

<
>
<=
>
>=
==
!=

→ To compare

x=10
y=20

x<y

y>x

x!=y

x=10
y=10

x==y

Flow Control

- **Selection Statement**
  - if statement
  - if else statement
  - if else if statement
  - switch statement
- **Iterative Statement**
  - while loop
  - do while loop
  - for loop
  - inhanced for loop (foreach)
- **Transfer Statement**
  - break
  - continue
  - return
  - try-catch-finally

Flow Control

- **Selection Statement**
  - if statement
  - if else statement
  - if else if statement
  - switch statement
- **Iterative Statement**
  - while loop
  - do while loop
  - for loop
  - inhanced for loop (foreach)
- **Transfer Statement**
  - break
  - continue
  - return
  - try-catch-finally

```
Enter 1st value:50
Enter 2nd value: 40

Enter your choice:

1. Add
2. subs
3. Multi
4. Div

 1

 sum is:90
```

```
Enter 1st value:50          → x
Enter 2nd value: 40         → y

Enter your choice:          → z

1. Add
2. subs
3. Multi
4. Div

 1

 sum is:90
```

```
Enter 1st number : 85

Enter 2nd number : 789

Enter 3rnd number : 45

 789 is the largest number
```

```
class A

{

  public static void main(String args[])

  {

        int x,y,z;
```

```
      x=10;
      y=20;

      System.out.println(x+y);
  }
}
```

```
class A
{
  public static void main(String args[])
  {
      int x,y,z;
      x=10;
      y=20;

      System.out.println(x<y);//true
  }
}
```

```
class A
{
  public static void main(String args[])
  {
        int x,y,z;
        x=10;
        y=20;

        System.out.println(x>y);
  }
}
```

```
class A
{
  public static void main(String args[])
  {
         int x,y;
         x=100;
```

```
        y=20;

        if(x<y)
        {
            System.out.println("Hello");
        }

  }
}
```

```
